

Portfolio Analytics Engineer - Vice President

About AQR Capital Management

AQR is a global investment management firm built at the intersection of financial theory and practical application. We strive to deliver superior, long-term results for our clients by looking past market noise to identify and isolate what matters most, and by developing ideas that stand up to rigorous testing. Our focus on practical insights and analysis has made us leaders in alternative and traditional strategies since 1998.

At AQR, our employees share a common spirit of academic excellence, intellectual honesty and an unwavering commitment to seeking the truth. We're determined to know what makes financial markets tick – and we'll ask every question and challenge every assumption. We recognize and respect the power of collaboration, and we believe transparency and openness to new ideas leads to innovation.

The Team:

Technology is central to AQR's success. As a Senior Software Engineer in Portfolio Implementation, you will lead the design and delivery of complex, mission-critical systems that turn investment ideas into reality. Working closely with researchers, portfolio managers, and engineering peers, you will drive large-scale technical initiatives while mentoring engineers and raising the bar for engineering excellence across the team.

Your Role:

As a Senior Software Engineer in Portfolio Implementation, you will operate with broad ownership and technical authority across core investment systems, including:

- ◆ Leading the design and implementation of portfolio implementation platforms that consume research outputs, perform constrained optimizations, and generate orders
- ◆ Owning and evolving distributed, microservice-based systems that operate reliably at scale
- ◆ Lead architectural design for high-performance, high-volume, highly available systems, making informed trade-offs across performance, flexibility, and maintainability
- ◆ Delivering complex, cross-cutting initiatives that span multiple services, teams

- ◆ Providing technical leadership to small teams (typically 2–5 engineers), including task planning, design reviews, and execution oversight
- ◆ Mentoring and coaching engineers through code reviews, design discussions, and hands-on guidance
- ◆ Partnering with a global team of researchers, portfolio managers and engineers to deliver robust, production-quality solutions on time

What You'll Bring:

- ◆ Degree in Computer Science or a related technical field
- ◆ 7+ years of professional software engineering experience, with deep expertise in Java
- ◆ Strong experience using Python in production or research-adjacent environments
- ◆ Proven ability to design, build, and operate large-scale, distributed systems
- ◆ Experience operating microservice-based architectures, using technologies such as Java, Elasticsearch, Redis, RabbitMQ / AMQ, and relational databases (e.g., PostgreSQL, MS SQL Server)
- ◆ Strong command of engineering best practices, including code quality, design documentation, peer code reviews, automated testing, and test coverage
- ◆ Experience operating, tuning, and profiling high-performance systems in production environments
- ◆ Experience with observability and monitoring platforms (e.g., New Relic) and using metrics to drive reliability and performance improvements
- ◆ Ability to lead technical change, manage risk, and drive initiatives to completion in complex environments
- ◆ Experience contributing to requirements capture, technical specification, and work breakdown
- ◆ Ability to estimate work, plan delivery, and manage technical trade-offs
- ◆ Interest in financial markets and the investment process

Who You Are:

- ◆ A strong technical leader who takes ownership of outcomes, not just implementations
- ◆ Comfortable driving large, ambiguous initiatives from concept through delivery

- ◆ Effective at mentoring and developing engineers, setting clear expectations and providing constructive feedback
- ◆ Able to balance hands-on contribution with leadership and oversight
- ◆ Collaborative, thoughtful, and effective working across disciplines and geographies
- ◆ Committed to intellectual integrity, transparency, and openness

The salary range for this role is expected to be [\$165,000-\$185,000]. This is the range that we in good faith believe is accurate for this role at the time of this posting. We may ultimately pay more or less than the posted range, depending upon factors such as skills, experience, location, or other business and organizational needs. This wage range may also be modified in the future.

This job is also eligible for an annual discretionary bonus.

We offer comprehensive package of benefits including paid time off, medical/dental/vision insurance, 401(k), and any other benefits to eligible employees.

Note: No amount of pay is considered to be wages or compensation until such amount is earned, vested, and determinable. The amount and availability of any bonus, commission, benefits, or any other form of compensation and benefits that are allocable to a particular employee remains in the Company's sole discretion unless and until paid and may be modified at the Company's sole discretion, consistent with the law.

AQR is an Equal Opportunity Employer. EEO/VET/DISABILITY

AQR Capital Management, LLC, along with its affiliates (collectively "AQR"), may collect certain personal information about you. AQR's [Global Privacy Policy](#) describes the types of personal information we obtain, how we use the information, with whom we share it and the choices available to you regarding our use of your personal information. AQR's [California Privacy Policy](#) governs AQR's approach and procedures regarding personal information of prospective and current employees and contractors residing in California.

In providing your personal information, you confirm that you have read and understood the [Global Privacy Policy](#) and further, that you consent to your personal information being used in the manner as set forth and described within the Global Privacy Policy, specifically to those matters explained under the sections: Data Transfers, Information We Disclose, How We Use the Information We Obtain, and, where relevant, the applicable Local Country and State Addenda that reflects your location. In addition, for job applicants residing in California, by providing your personal information you confirm you also have read and understood the [California Privacy Policy](#) and that you consent to your personal information being used in the manner set forth therein.

You may choose to contact us with respect to amending your consent for us to use your personal information. Please contact us as indicated in the How To Contact Us section of the [Global Privacy Policy](#) and/or the Contact Us section of the [California Privacy Policy](#).

For government reporting purposes, we ask candidates to respond to the below self-identification survey. Completion of the form is entirely voluntary. Whatever your decision, it will not be considered in the hiring process or thereafter. Any information that you do provide will be recorded and maintained in a confidential file.

As set forth in AQR's Equal Employment Opportunity policy, we do not discriminate on the basis of any protected group status under any applicable law.

If you believe you belong to any of the categories of protected veterans listed below, please indicate by making the appropriate selection. As a government contractor subject to the Vietnam Era Veterans Readjustment Assistance Act (VEVRAA), we request this information in order to measure the effectiveness of the outreach and positive recruitment efforts we undertake pursuant to VEVRAA. Classification of protected categories is as follows:

A "disabled veteran" is one of the following: a veteran of the U.S. military, ground, naval or air service who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs; or a person who was discharged or released from active duty because of a service-connected disability.

A "recently separated veteran" means any veteran during the three-year period beginning on the date of such veteran's discharge or release from active duty in the U.S. military, ground, naval, or air service.

An "active duty wartime or campaign badge veteran" means a veteran who served on active duty in the U.S. military, ground, naval or air service during a war, or in a campaign or expedition for which a campaign badge has been authorized under the laws administered by the Department of Defense.

An "Armed forces service medal veteran" means a veteran who, while serving on active duty in the U.S. military, ground, naval or air service, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985.

Voluntary Self-Identification of Disability

Form CC-305

Page 1 of 1

OMB Control Number 1250-0005

Expires 04/30/2026

Why are you being asked to complete this form?

We are a federal contractor or subcontractor. The law requires us to provide equal

employment opportunity to qualified people with disabilities. We have a goal of having at least 7% of our workers as people with disabilities. The law says we must measure our progress towards this goal. To do this, we must ask applicants and employees if they have a disability or have ever had one. People can become disabled, so we need to ask this question at least every five years.

Completing this form is voluntary, and we hope that you will choose to do so. Your answer is confidential. No one who makes hiring decisions will see it. Your decision to complete the form and your answer will not harm you in any way. If you want to learn more about the law or this form, visit the U.S. Department of Labor's Office of Federal Contract Compliance Programs (OFCCP) website at www.dol.gov/ofccp.

How do you know if you have a disability?

A disability is a condition that substantially limits one or more of your "major life activities." If you have or have ever had such a condition, you are a person with a disability. **Disabilities include, but are not limited to:**

- Alcohol or other substance use disorder (not currently using drugs illegally)
- Autoimmune disorder, for example, lupus, fibromyalgia, rheumatoid arthritis, HIV/AIDS
- Blind or low vision
- Cancer (past or present)
- Cardiovascular or heart disease
- Celiac disease
- Cerebral palsy
- Deaf or serious difficulty hearing
- Diabetes
- Disfigurement, for example, disfigurement caused by burns, wounds, accidents, or congenital disorders
- Epilepsy or other seizure disorder
- Gastrointestinal disorders, for example, Crohn's Disease, irritable bowel syndrome
- Intellectual or developmental disability
- Mental health conditions, for example, depression, bipolar disorder, anxiety disorder, schizophrenia, PTSD
- Missing limbs or partially missing limbs
- Mobility impairment, benefiting from the use of a wheelchair, scooter, walker, leg brace(s) and/or other supports
- Nervous system condition, for example, migraine headaches, Parkinson's disease, multiple sclerosis (MS)
- Neurodivergence, for example, attention-deficit/hyperactivity disorder (ADHD),

- autism spectrum disorder, dyslexia, dyspraxia, other learning disabilities
- Partial or complete paralysis (any cause)
 - Pulmonary or respiratory conditions, for example, tuberculosis, asthma, emphysema
 - Short stature (dwarfism)
 - Traumatic brain injury
